

Communication Acknowledgement

To streamline our communication with our families, our primary communication method is in digital format. To receive communication from our classroom teachers and administrative team, all families must sign up for the Procure digital center management app using their personal email with a center-provided link. With the use of the app, the center will share the following updates throughout the day:

- Photos and Videos
- Daily Activity Updates
- Meals and Feedings
- Diaper Changes
- Rest Times
- Medication Disbursements
- Supply Reminders
- Instant Messages
- Incident Reports

By signing this form, you are acknowledging the requirement for all families to sign up for the Procure app to receive digital communication. In the event that additional communication is required, a member of our staff will personally contact our families via telephone or in-person.
